## ASSESSMENT QUESTIONS

The content of AACP ConPharm 2020 online activity is based on critical evaluation of relevant literature and/or practice-based professional evidence. Where a presenter has used their own experience to discuss a topic, potential limitations of the evidence are disclosed.

The pass mark for the assessment is **equal to or greater than 75%**. Where a supplementary assessment is required, a maximum of **two** attempts per assessment is allowed. As different

questions will not be available, answers **will not** be displayed to the participants to prevent the memorising of questions.

**Feedback** on the answers to the MCQs will be made available when the CPD accreditation expires in 2022.

There is no time limit when answering the questions. The system will retain your answers if you take a break from the assessment. You can return to complete the assessment at any time.

Once you have successfully completed the assessment, you will be able to download a certificate of completion. This should be retained for your CPD records.
